Water outlet:	20mm	Other:	Full range of spare parts available
			Water cooled models available

Water filter recommended: 3M HF60-S Cartridge

Pressure Gauge Head: Please ask for prices

A good quality scale free water supply, a well ventilated location and routine maintenance are essential to ensure the ongoing performance of all our air cooled icemakers. Machine failure due to inadequate cleaning and limescale will not be covered by our manufacturers warranty. For further information please refer to product user manual.
